DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 11-18 and 26-28, drawn to a first product (a membrane) and a first method of use.

Group II, claims 19-25, drawn to a second product (a composite).

Group III, claim 29, drawn to a third product (an electrochemical cell).

Group IV, claim 30, drawn to a fourth product (an electrochemical cell).

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Each invention includes the subject matter of claim 11. The subject matter of claim 11 is anticipated by at least two documents, WO 95/10860 and JP 8-59981. See the International Preliminary Examination Report. Accordingly, the inventions lack a special technical feature which makes a contribution over the prior art (37 CFR 1.475(a)).

Art Unit: 1746

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
